Mac Word 3.0

Dear Hans,

Please find our revised budget estimate to manage the data management, stats and medical writing for the TES study. If you have any questions, please do not hesitate to call me on my cell phone at (703) 303-9731. As you will see our estimate came down significantly due to the eCRF.

I will be out tomorrow, but checking voicemail. If you are comfortable with these numbers, let me know and we can arrange a conference call or meeting with the team.

If I don't hear from you, have a great weekend!

Doug

Dear Dough, the assumptions are correct. At this moment it is my assumption that there will be no coding necessary, we also do not need a SAE database like in drug trials.

Best regards
Hans
